

Dear Friends,

We are writing to introduce to you an exciting new program recently launched by the Republican Party of New Mexico--the [180° Turnaround Campaign](#). The 180° Turnaround Campaign has been initiated to achieve one goal: to create a strong two-party system by electing effective and principled Republicans to serve in local, state, and federal levels of government.

It's no secret that our state needs to be turned around. It seems that you can't pick up a newspaper anymore without learning of a new corruption scandal in New Mexico. But that's not all. Education initiatives championed by the Richardson-Denish administration during the last six years have failed. We owe it to our youth to improve this reality.

Success in the 2010 statewide elections is critical to ensuring that we reverse the current trend of "pay-to-play" and "who-you-know" politics. We can do this by partnering with like-minded New Mexicans who share our conviction to offer better solutions and to do away with the old ways of unchecked, one-party rule.

This is why we are supporting Chairman Harvey Yates as he embarks upon one of the most aggressive and comprehensive fundraising campaigns in the history of the Republican Party of New Mexico. And we ask you to join us.

Please take the next couple of minutes to hear from two of New Mexico's former representatives in the U.S. Congress--Heather Wilson and Steve Pearce--as they share with you why they, too, are supporting the Republican Party's 180° Turnaround Campaign.

Contributing to the 180° Turnaround Campaign will ensure that the party has resources to recruit strong candidates to run for office, expand community initiatives across the state, and effectively communicate our conservative message in multiple campaigns across the state.

I ask you to join us, Heather Wilson, Steve Pearce, and Chairman Yates and partner with the Republican Party of New Mexico's 180° Turnaround Campaign today. Your generous contribution of \$15 a month will enable us to elect ethical leaders who are ready to turn New Mexico around 180°.

Sincerely,

Senator Pete V. Domenici, and

U.S. Secretary of the Interior Manuel Lujan Jr.

P.S. Please contact the Republican Party of New Mexico today to partner with the party's 180° Turnaround Campaign. You can join the campaign online [here](#).
