Obamacare Anniversary Prompts RPNM Chair

Albuquerque, NM – Republican Party of New Mexico Chairman Monty Newman released the following statement regarding the first anniversary of the Affordable Health Care Act being signed into law:

“Today we pause to remember that one year ago President Obama signed into law a government takeover of healthcare and Washington Democrats paid the price at the polls in November. Since that time Obamacare has become even more unpopular and the majority of Americans now support repealing and replacing Obamacare with sensible reform.

Let us also use this event to focus our attention on laying the foundation this year to be able to elect common sense candidates in New Mexico who will fight to ensure that government is smaller and more transparent.”

The Republican Party of New Mexico will be releasing fact sheets on Obamacare throughout the day at <http://www.gopnm.org>
