**Congressman Pearce Applauds Governor For Signing Jobs-Creating Legislation**  
Office of Congressman Steve Pearce  
April 5, 2011

**Santa Teresa, NM (April 5, 2011)** Today, Congressman Steve Pearce commended New Mexico Governor Susana Martinez on her decision to sign into law a diesel tax abatement bill. The bill will allow Union Pacific Railroad to invest an estimated \$400 million in new infrastructure in the Santa Teresa area, bringing jobs and economic growth to the area.

“The signing of today’s legislation is an important landmark in a project I have long supported at the federal level,” said Pearce. “Commonsense legislation like today’s, which will bring jobs to New Mexico, is vital for the economic recovery of our state and our nation. I applaud the Governor for her decision to sign today’s legislation into law, and for her commitment to New Mexican workers.”

The bill signing will be held today at 2:00pm in Santa Teresa, New Mexico.
